

MN Cycling Association Finalists Welcome to Chisholm & The Iron Range!

The City of Chisholm is excited to have The MN Cycling Association in town and hitting the trails on our very own **Redhead MTB Park**! We hope everyone is set for a great race and remember to ride smart and to ride safe, there's no medal in the world that's worth hurting yourself over!

There's plenty to enjoy and see in the area and these articles can help you find exactly what you're looking for.

For our history buffs there is quite a lot to see and do at the **Museum of Mining** and the **Minnesota Discovery Center**. A tour through a replica mining tunnel, and even a research center is available if you want to explore your own connections to the region! (You might be surprised!)

Redhead MTB Park was once The Pillsbury Mine circ. 1898 that would form the basis of the Pillsbury company that we know today! That's right, they got their start here on The Iron Range and from the remains of the mine, after flooding the pits the MTB Park was created to form a beautiful and challenging course steeped in history!

The Chisholm Iron Man, "The Emergence of Man Through Steel". A gargantuan likeness of an 1880's miner standing 85' high designed by artist Jack Anderson and dedicated in 1987.

Notice the giant statue on the edge of town? That's our very own **Chisholm Iron Man**, dedicated in 1987, it is the 2nd largest free-standing statue in America. The Iron Man statue pays respect to the immigrants who worked the mines in the early 1900's who played a critical, and dangerous role, in the formation of the country we know today.

Take in the sights, enjoy our local entertainment, food, and, most importantly: Have a great race!
